
ACTA DIABETOLOGICA LATINA

Editorial Advisory Council:

U. Butturini, Parma
E. R. Froesch, Zürich
H. Keen, London
P. Lefèbvre, Liège
G. Lenti, Torino

R. Luft, Stockholm
H. Mehnert, München
Ph. Vague, Marseille
B. L. Wajchenberg, São Paulo
R. S. Yalow, New York

Editorial Board:

L. Adezati, Genova
P. Brunetti, Perugia
E. Marubini, Milano

R. Müller, Wiesbaden
E. Pannese, Milano
L. Robba, Bergamo

Managing Editors:

S. Marigo, La Spezia

G. Pozza, Milano

General Information

Publication data: ACTA DIABETOLOGICA LATINA appears six times a year. The six issues constitute one volume. Supplements (monographs or conference proceedings) are published occasionally.

Subscription price per volume US \$ 50 (Lit. 30,000) including postage by surface mail.

If required issues can be sent by air mail at an extra charge of US \$ 9 (Lit. 5,400) per volume and US \$ 1.50 (Lit. 900) per single issue.

Price per single issue US \$ 10 (Lit. 6,000).

Special price, only for Members of Diabetology and Endocrinology Societies, US \$ 35 (Lit. 20,000) per volume.

Prices quoted do not include supplements.

Advertising: orders for advertisements should be sent to the Publishing House (see below).

Books for review: books for review should be sent to the Publishing House (see below).

Subscriptions: subscription orders can be placed with any bookstore or direct with:
Casa Editrice « IL PONTE » - Casella Postale 1071 - 20100 Milano, Italy.

All rights, including that of translation into languages, reserved.
Photomechanic reproduction (photocopy, microcopy) of this volume or parts thereof without special permission of the publisher is prohibited.

ACTA DIABETOLOGICA LATINA

VOLUME XV

1978

CONTENTS

R. LUFT, S. EFENDIĆ: On the pathogenesis of maturity-onset diabetes mellitus	1
G. PADMAJA, B. CHEMPAKAM, P. A. KURUP: Insulin and metabolism of glycosaminoglycans in rabbits	16
L. BARTA, G. BROOSER, M. MOLNÁR: Prognostic value of fluorescein angiography of the fundus in diabetic children	24
B. BOURGEOIS, G. R. ZAHND: Usefulness of serum lipid determination in diabetic practice .	29
P. SINGER, G. GNAUCK, G. HONIGMANN, H. THOELKE, V. SCHLIACK: The fatty acid pattern of triglycerides in liver, adipose tissue and serum of diabetics with hyperlipoproteinemia before and during clofibrate treatment	40
R. PRANDO, R. CORDERA, P. ODETTI, A. DE MICHELI, M. MAIELLO, G. VIVIANI, L. ADEZATI: Exploration of the early insulin response by two small successive loads of i.v. glucose in normal and obese subjects	53
I. BLUM, M. DORON, Z. LARON: Lack of influence of arginine preloading on the insulin response to i.v. glucagon in children and adolescents	68
V. MEISTER, G. L. ROSSI: Quantitative electron-microscopic studies of Langerhans islets in normoglycemic Chinese hamsters of a diabetic strain	72
A. L. A. MARTIN, M. M. MARTIN: Continuous infusion of insulin vs repeated s.c. injections in the treatment of diabetic ketoacidosis in children	81

A. D. B. HARROWER, I. W. CAMPBELL, D. J. EWING, A. MURRAY, J. M. M. NEILSON, B. F. CLARKE: The value of continuous ECG monitoring during treatment of diabetic keto-acidosis. A computer study	88
J. BARBOSA: Plasma myoinositol in diabetics including patients with renal allografts	95
A. RENAULD, R. C. SVERDLIK, L. L. ANDRADE, R. R. RODRÍGUEZ: Effects of chronic TSH treatment on blood sugar, serum IRI and FFA levels of thyroidectomized dogs. Glucose and insulin tolerance tests	119
H. SANKARAN, M. G. HARRINGTON: Attempts to prepare 'insulin-free plasma' from human subjects: effects of serial dilution and insulin recovery studies on immunoreactive insulin activity of partially insulin-free plasma	133
A. TIENGO, D. FEDELE, M. MUGGEO, R. NOSADINI, M. MOLINARI, M. C. GAROTTI, G. CREPALDI: Glucagon and insulin secretion in potential diabetes	143
M. CIGOLINI, B. JACOBSSON, G. NYBERG, U. SMITH: Studies on the morphologic and metabolic changes of human fat cells maintained in culture	152
K. R. SHETTY, K. P. GANESHAPPA, P. S. ROSENFELD: Insulin secretion in patients with myotonic dystrophy and their relatives	159
B. SCHULZ, S. KNOSPE, D. MICHAELIS, K. TITZE, W. HILDMANN: Relationship between carbohydrate tolerance, insulin secretion, and insulin sensitivity of isolated fat cells from obese protodiabetics	166
M. SHICHIRI, R. KAWAMORI, Y. GORIYA, M. KIKUCHI, Y. YAMASAKI, Y. SHIGETA, H. ABE: Increased intestinal absorption of insulin in a micellar solution: water-in-oil-in-water insulin micelles	175
G. SCHERNTHANER, H. LUDWIG, W. R. MAYR: Coxsackie B ₄ viral infection, anti-islet immunity and immunogenetics in insulin-dependent diabetes mellitus	184
V. SAIBENE, G. MARTINELLI, F. VASCONI, G. POZZA: Clonidine effect on insulin secretion and lipolysis in man	192
E. R. RICHENS, J. QUILLEY, M. HARTOG: Studies on the frequency and associations of islet-cell antibodies in juvenile diabetes mellitus	229
Y. GORIYA, R. KAWAMORI, M. SHICHIRI, M. KIKUCHI, Y. YAMASAKI, Y. SHIGETA, H. ABE: Validation of i.v. small-dose insulin infusion therapy in diabetic ketoacidosis of depancreatized dogs	236
R. BALA PURI, K. ANJANEYULU, J. R. KIDWAI, V. K. MOHAN RAO: <i>In vitro</i> conversion of proinsulin to insulin by cathepsin B and role of C-peptide	243
R. NOSADINI, G. SOLDÀ, F. DE BIASI, A. TIENGO: Metabolic effects of glucagon in endogenous hypertriglyceridemia	251
R. PRANDO, R. CORDERA, A. DE MICHELI, M. MAIELLO, P. ODETTI, G. VIVIANI, L. CORSI, L. ADEZATI: I.v. glucose tolerance test: correlation between FFA, glucose and IRI in normal, obese and diabetic subjects	259
Y. NOTO, H. OKAMOTO: Inhibition by kynurenine metabolites of proinsulin synthesis in isolated pancreatic islets	273
K. KIMURA, M. UKIKUSA, K. OZAWA, T. TOBE: Changes in mitochondrial redox state following an oral glucose load	283
G. G. SCHOFIELD, B. L. FURMAN, I. G. MARSHALL: The effect of acute alloxan diabetes on the sensitivity of the rat skeletal neuromuscular junction to drugs	287
U. FISCHER, E.-J. FREYSE, E. SALZSIEDER, G. ALBRECHT: Duplication of the blood glucose curve of an OGTT in dogs by a prospectively programmed i.v. infusion: infusion pattern and IRI response	294
M. ERMINI, C. MACALUSO, P. MASIELLO: Functional modifications of endocrine pancreas after internal biliary fistula (experimental research)	303

CASE REPORTS

P. T. CHANDLER, P. R. REGE, R. A. KNOBLAUGH: Long-term application of intermittent urethral catheterization to the neurogenic bladder of diabetes mellitus	105
I. W. CAMPBELL, D. J. EWING, B. F. CLARKE: Painful myocardial infarction in severe diabetic autonomic neuropathy	201
J. MIROUZE, G. MARCHAL, A. ORSETTI, C. JAFFIOL, L. MONNIER, P. BALDET, M. PIPERNO, B. HEDON: Insulinoma with hypoglycemia and normal immunoreactive insulin but with an insulin-like activity restricted to the portal vein	205
P. T. CHANDLER, R. S. SINGH, R. P. SCHWETSCHENAU: Diabetic neurophathic cachexia	212
S. K. SAMANTRAY: Emphysematous pyelonephritis and perinephric gas in a diabetic	313

REVIEWS OF BOOKS

ANIDO G., VAN KAMPEN E. J., ROSALKI S. B., RUBIN M. (Eds): Quality control in clinical chemistry	111

SUBJECT INDEX: 1978 (Vol. XV)

Page numbers referring to 'Reviews of Books' are italicized

A

Adipose tissue cells

- glucose incorporation in lipids of—
 - after incubation 152
 - and cell volume 152
- glycerol release from—
 - after incubation 152
 - and cell volume 152
- lipolysis in—
 - after incubation 152
 - and cell volume 152
- size of—
 - after incubation 152

Angiography, fluorescein

- in d. retinopathy 24

Angiopathy, diabetic

- serum triglycerides and— 29

Arginine

- effects of preloading with—
 - on insulin secretion 68

Arginine test

- results of—
 - in myotonic dystrophy 159

Atherosclerosis

- in primates
 - a book 114
- studies on—
 - a book 220

B

Bacteria

- identification of—
 - a book 324

Biliary fistula

- effects of—
 - on glucose tolerance i.v. 303
 - on serum insulin after glucose . . . 303
 - on serum insulin after tolbutamide 303

Biochemistry

- a book 116

Bladder, neurogenic

- therapy of—
 - with intermittent urethral catheterization 105

Body fluid osmolality

- disturbances of—
 - a book 321

Brain

- nutrition
 - a book 326

C

Cachexia

- by diabetic neuropathy
 - case report 212

Cathepsin B

- in vitro* effects of—
 - on proinsulin to insulin conversion 243

Cells

- metabolic regulation of—
 - a book 117

Clofibrate

- effects of treatment with—
 - on serum cholesterol in d.m. . . . 40
 - on serum triglycerides in d.m. . . . 40
 - on triglyceride fatty acid composition 40

Clonidine

- administration of—
 - and glucose tolerance 192
 - and serum insulin after glucose . . . 192
 - and serum insulin after tolbutamide 192
 - and tolbutamide test 192
- in vitro* effects of—
 - on lipolysis 192

Coronary disease

- in d.m.
 - serum triglycerides and— 29

C-peptide

- and proinsulin to insulin conversion . 243

D

Diabetes, juvenile

- Coxsackie B₄ virus antibodies and— . 184
- HLA B8 in— 184
- HLA type in— 229
- islet cell antibodies in— 184, 229
- pathogenesis of—
 - coxsackie B₄ virus and— 184
- retinopathy in— 24
- study in—
 - of retina with angiography 24

Diabetes, maturity-onset

- pathogenesis of—
 - a review 1

Diabetes in animals, experimental

- by alloxan
 - sensitivity of skeletal neuromuscular junction in— 287

Diabetes in animals, spontaneous

- in Chinese hamsters
 - islet ultrastructure in— 72

Diabetes mellitus

- topics
 - a book 322

Diet

- tables of— for several diseases
 - a book 112

E

ECG

- continuous monitoring of—
 - in d. ketoacidosis 88

Endocrinology

- case reports of—
 - a book 115

F

Fatty acids

- in adipose tissue
 - of hyperlipoproteinemic d. 40
- in liver
 - of hyperlipoproteinemic d. 40
- in serum triglycerides
 - of hyperlipoproteinemic d. 40

Foot surgery

- complications in—
 - a book 321

G

Glucagon

- in vivo* effects of—
 - in hypertriglyceridemic patients . . 251
 - on blood glucose 251
 - on serum β -hydroxybutyrate 251
 - on serum insulin 251
 - on serum NEFA 251
 - on serum triglycerides 251

Glucagon in blood

- after arginine
 - in prediabetics 143
 - in chemical d.m. 143
- after glucagon
 - in hypertriglyceridemic patients . . 251
- after glucose
 - in prediabetics 143
 - in chemical d.m. 143

Glucose tolerance, i.v.

- effects on—
 - of clonidine 192
- results of—
 - in d. subjects 259
 - in obese subjects 259
- in thyroidectomized dogs
 - effects of TSH on— 119
- with two i.v. glucose loads
 - in obese subjects 53

Glucose tolerance, oral

- results of—
 - in myotonic dystrophy 159

- in thyroidectomized dogs
- effects of TSH on— 119

Glycerol in blood

- after glucose infusion
- in obesity with abnormal OGTT 166
- in obesity with normal OGTT 166

Glycosaminoglycans

- a book 326
- metabolism of—
- insulin and— 16

Glycoproteins

- a book 326

Gout

- a book 222

H

Heart

- arrhythmias
- in d. ketoacidosis 88
- rate of—
- in d. ketoacidosis 88

Heredity of diabetes mellitus

- a book 111

HLA system

- B₈
- in juvenile d.m. 184
- and islet cell antibodies 184
- and coxsackie B₄ virus antibodies 184
- in juvenile d.m. 229

Hormones

- chemistry of—
- a book 113
- recent progress in— research
- a book 113

Hospital

- management of—
- a book 326

β-Hydroxybutyrate in blood

- after glucagon
- in hypertriglyceridemic patients 251

Hyperuricemia

- a book 222

Hypothalamic hormones

- chemistry, physiology, pharmacology
- a book 116

I

Infarction, myocardial

- painful
- in d.m. with autonomic neuropathy 201

Inositol, see Myoinositol 95

Insulin

- binding of—
- after serial dilution 133
- biosynthesis of— *in vitro*
- and cathepsin B 243
- and C-peptide role in— 243
- in vitro* effects of—
- on glycosaminoglycan metabolism 16
- in vitro* effects of—
- on cytosolic redox state of liver 283
- on mitochondrial redox state of liver 283
- intestinal absorption of—
- in alloxan diabetic rats 175
- with water-in-oil-in-water micelles 175

Insulin-free plasma

- method for— 133

Insulin in blood

- after arginine i.v.
- in chemical d.m. 143
- in myotonic dystrophy 159
- in prediabetics 143
- after glucagon
- and arginine preloading 68
- in hypertriglyceridemic patients 251
- after glucose, i.v.
- clonidine and— 192
- after internal biliary fistula in dogs 303
- in chemical d.m. 143
- in d. subjects 259
- in normal subjects 259
- in obese subjects 259
- in obesity with abnormal OGTT 166
- in obesity with normal OGTT 166
- in prediabetics 143
- after glucose, oral
- in myotonic dystrophy 159
- after glucose, oral and i.v.
- comparison in dogs 294

after glucose in thyroidectomized dogs	
effects of TSH	119
after tolbutamide	
after internal biliary fistula in dogs	303
clonidine and—	192
in myotonic dystrophy	159
after two i.v. glucose loads	
in obese subjects	53
<i>Insulin secretion</i>	
<i>in vivo</i> by glucagon	
and arginine preloading	68
<i>in vivo</i>	
entero-insular axis and—	294
<i>Insulin test</i>	
results of—	
in chemical d.m.	143
in prediabetics	143
in thyroidectomized dogs	
effects of TSH on—	119
<i>Insulinoma</i>	
with high portal NSILA	
case report	205
with normal serum IRI	
case report	205
<i>Intensive care</i>	
instrumentation for—	
a book	114
<i>Intestine</i>	
absorption by— in man	
a book	115
<i>Islets, pancreatic</i>	
antibodies to—	
and HLA B8	184
and virus coxsackie B4	184
in juvenile d.m.	184
autoantibodies to—	
in juvenile d.m.	229
a book	221
ultrastructural studies of—	
in normoglycemic Chinese hamsters	
of d. strain	72

K

<i>Ketoacidosis, diabetic</i>	
in depancreatized dogs	
therapy with small doses of insulin	236

therapy of—	
value of ECG monitoring in—	88
with continuous infusion of insulin	81
with repeated subcutaneous insulin	
injections	81

Kidney

inositol metabolism	95
-------------------------------	----

Kynurenine

<i>in vitro</i> effects of—	
on proinsulin synthesis	273

L

Laboratory techniques

for enzymatic analysis	
a book	219
quality control in—	
a book	111

Lipid metabolism

diet therapy in the diseases of—	
a book	117
diseases of—	
a book	117

Lipids in blood

diseases of—	
a book	324

Lipolysis

<i>in vitro</i>	
and clonidine	192

Liver

cytosolic redox state in—	
and endogenous insulin	283
and oral glucose load	283
and glucose homeostasis	
a book	115
mitochondrial redox state in—	
and endogenous insulin	283
and oral glucose load	283

Lymphocyte

structure and function	
a book	220

M

Medical emergency

manual for—	
a book	221

Metabolic diseases, inherited

- diet therapy of—
 - a book 219

Mucopolysaccharidoses

- a book 325

Myoinositol

- oral tolerance to—
 - in d.m. 95
 - in normal subjects 95

Myoinositol in blood

- after meal
 - in d.m. 95
 - in normal subjects 95

N

NEFA in blood

- after glucagon
 - in hypertriglyceridemic patients . . . 251
- after glucose i.v.
 - in d. subjects 259
 - in normal subjects 259
 - in obese subjects 259
- after glucose infusion
 - in obesity with abnormal OGTT . . . 166
 - in obesity with normal OGTT . . . 166
- after insulin in thyroidectomized dogs
 - effects of TSH 119
- after two i.v. glucose loads
 - in obese subjects 53

Nephropathy, diabetic

- emphysematous pyelonephritis
 - case report 313
- perinephric gas
 - case report 313

Neurological diseases

- mechanisms of—
 - a book 115

Neuropathy, diabetic

- cachexia
 - case report 212
- neurogenic bladder
 - case report 105
 - therapy of— 105
- painful myocardial infarction in—
 - case report 201

O

Obesity

- and blood insulin after glucose
 - in subjects with abnormal OGTT . . . 166
 - in subjects with normal OGTT . . . 166
- diet therapy of—
 - a book 325
- i.v. glucose tolerance in—
 - study with two glucose loads . . . 53
- plasma NEFA in—
 - after two i.v. glucose loads
- review on—
 - a book 111, 114
- serum insulin in—
 - after two i.v. glucose loads . . . 53

P

Pancreas

- in d.m.
 - a book 221

Pancreas, diseases

- diagnosis of—
 - a book 321

Pathogenesis of diabetes

- maturity onset
 - a review 1

Pathophysiology

- a book 323

Prediabetes

- serum glucagon after arginine in— . . 143
- serum glucagon after glucose in— . . 143
- serum insulin after arginine in— . . 143
- serum insulin after glucose in— . . 143

Pregnancy

- d.m. in—
 - a book 324
- endocrine disorders in—
 - a book 324

Proinsulin

- conversion *in vitro* to insulin
 - by cathepsin B 243
 - role of C-peptide 243

Pyelonephritis

- in d.m.
case report 313

R

Radioimmunoassay

- for steroid hormones
a book 220
- handbook of— 219

Redox state

- in cytosol of hepatocytes
endogenous insulin and— 283
- oral glucose load and— 283
- in mitochondria of hepatocytes
endogenous insulin in— 283
- oral glucose load and— 283

Research

- ethical problems of—
a book 112

Retinopathy, diabetic

- study of—
in juvenile diabetes 24
- with fluorescein angiography . . . 24

S

Sensitivity, neuromuscular

- to drugs
in alloxan d. rats 287

Sex

- in human life cycle—
a book 324

Steroid hormones

- radioimmunoassay for—
a book 220

T

Therapy of diabetes mellitus, diet

- a book 325
- in obese d.
a book 323

Therapy of diabetes mellitus, insulin

- of ketoacidosis
with small doses of insulin . . . 236
- with water-in-oil-in-water micelles
in alloxan d. rats 175

Thyrestimulin hormone

- in vivo* effects of—
on glucose tolerance in thyroidecto-
mized dogs 119
- on insulin tolerance in thyroidecto-
mized dogs 119
- on serum FFA in thyroidectomized
dogs 119
- on serum IRI in thyroidectomized
dogs 119

Tolbutamide test

- effects on—
of clonidine 192
- results of—
in myotonic dystrophy 159

Triglycerides in blood

- after glucagon
in hypertriglyceridemic patients . . 251
- fasting levels of— in d.m.
usefulness of their evaluation . . 29
- methods for evaluation of— . . . 29

V

Virology

- a book 220
